

KLICKITAT RIVER

KLICKITAT RIVER GUIDED DRIFT BOAT FISHING Washington State

The Klickitat river is by far one of the best kept secrets in fresh water

I own and operate Klickitat River Guides a third generation guide service that was founded By my father Phil Zoller. Most of the river runs through a Remote road less no trails Indian reservation. The lower 30 miles has access and is ran with drift boats. Our company holds the only fishing guides permit on the wild and scenic section. Being that the Klickitat is a glacier flowing stream the water stays cool and the fish stay firm and powerful. The Salmon and Steelhead migrate from the Pacific ocean up the Columbia and into the Klickitat. The climate in the Klickitat valley is very unique. As the storms come in off the Pacific the rain falls in the Cascade Range. Twenty miles west of the Klickitat its a rain forest ten miles east its a desert. We have Pine and oak forest with the south faced hills being mixed with open natural meadow and talk about wildlife you name it its here. So if your looking to take a fishing trip and want Big fish! Great scenery! Second and third generation guides that were brought up to be guides, give us a call or email. Oh almost forgot we also have beautiful riverside Lodging with open beam ceilings full bathrooms in the most awesome setting. My wife even does the cooking for you.
