

## LAKE ERIE

THE ICE ON LAKE ERIE IS FINALLY GONE . THE WATER TEMP ON ERIE IS 49. FIRST TRIP OUT ON THE LAKE WAS A GOOD ONE . ON SATURDAY APRIL 26 FOUND SOME BIG FISH IN 15 TO 20 FEET OF WATER . MOST OF THE FISH WERE SITTING ON SLIGHT BREAKS . BERLKY GULP ,AND CULPRIT GOBY BAITS SEEMED TO WORK THE BEST . CASTING AND HOPPING THE BAIT BACK TO THE BOAT WAS THE PATTERN. SOME FISH ARE STARTING TO MOVE IN TO 8 TO 10 FEET OF WATER. A FEW FISH CAME ON JERK BAITS AND SPINNER BAITS. IT IS ONLY GOING TO GET BETTER AS THE WATER WARMS UP . LOOK FOR SUTTLE BREAKS IN DEPTH AND TARGET THOSE AREAS.&nbsp; NOW IS THE TIME TO BOOK A SMALLMOUTH TRIP ON THE LAKE . &nbsp;BRAUNS OUTDOORS BASS CHARTERS
